

THURGOOD MARSHALL STUDENT PROGRAMS

Written by Mr. Emmanuel Eppie

Thurgood Marshall Student Programs or TMSP is a community service programs within the umbrella of Thurgood Marshall Center Trust or TMCT and has been operating since July, 2019.

The value of our program is we provide trainings for high school students in the DMV in S.T.E.A.M, Leadership Development, Diversity & Inclusion. These trainings give students access to industry professionals whom they may not have the kind of direct access to elsewhere.

WHAT'S IN THIS MONTH'S ISSUE:

- Who we are
- Upcoming Events

Our programs support students who are leaders within their school community. These young heroes are serving at the expense of their time, energy, resources, and comfort. It is noble of them to take on the leadership roles. That is why we present to them a nurturing, efficient, and rewarding mentoring program that will enhance and showcase their skills to the greater corporate community.

Upcoming Events

LEADERSHIP DEVELOPMENT Summer Series

During the week of August 1st, TMSP will host a leadership event with corporate leaders in various industries. We will host a panel discussion with networking opportunities for students to discuss the challenges and rewards of leadership in an organization.

ART THERAPY Summer Series

During the week of Aug. 8th, TMSP will host an art therapy session for student leaders before school resumes. We will have a guest host to help our young heroes unwind and get ready for the fall. The mental health of our leaders matter and we support them as they serve.
